

Sign-Up For Alerts

Alberta Emergency Alerts are issued by the communities where a disaster or emergency is occurring. By signing up to receive this information directly, you will be better informed about potential risks to your health, safety or community.

There are many ways to sign up to receive alerts directly on your phone or computer. You may choose to subscribe or unsubscribe at any time.

Android and iOS Apps

If you have an Android or Apple mobile phone or tablet, install the **Alberta Emergency Alert App** to receive alerts.

Twitter

If you have a Twitter account you can choose to follow the Alberta Emergency Alert account **AB_EmergAlert**

Or if you do not have a Twitter account but wish to receive alerts via text messages to your phone, text **Follow AB_EmergAlert** to **21212**. Note: the text message service is not available for TELUS Mobility customers at this time. TELUS Mobility customers should choose one of the other options to receive alerts. To stop receiving alerts from Twitter via text message, text *Unfollow AB_EmergAlert* to *21212*. There may be a limit set by Twitter on the text messages you can receive.

Facebook

If you are a Facebook member, visit the Alberta Emergency Alert page <https://www.facebook.com/abemergalert> Log in to your Facebook account and **Like** the page to see alerts in your news feed.

RSS

Subscribe to alerts via RSS/Atom using <http://www.emergencyalert.alberta.ca/aeapublic/feed.atom> Alerts will display if you have your RSS reader open on your browser, computer or mobile device or if your email provider supports RSS emails.
